

Danish School of Media and Journalism
Journalism
Course description
Spring semester 2022
International Video Journalism
4th. semester

Number of ECTS Credits: 30 ECTS

Aims

This one-semester, full-time programme combines practical video journalistic training with theoretical studies. Through visual storytelling and reflective reporting students will learn to produce journalistic video features and a short documentary video story.

Pedagogical and didactic approaches

Lectures with interactive discussions and exercises in groups based on the readings and relevant videos. Group work and peer feedback are the working methods for all the video assignments, including individual tuition in groups. Re-editing every video assignment based on the feedback given by teachers and peers.

The practical assignments given become gradually more complex in content and form and are followed, in steps, by analytical academic lectures and more comprehensive written reflective assignments. The theoretical-practical application of teaching and learning offers students a clear progress in journalistic experience and theoretical knowledge.

The group work and peer feedback will give the students a possibility to develop individually through cooperation and reflection.
