Course description
Spring 2017

4th semester

Visual Identity/Documentation

Duration: 3 weeks (5 ECTS)

Course objectives

The students will be able to develop guidelines for the use of design programs documented in manuals and guides.

The student will know and understand the principles and best practices of how to assure compliance in all material within a Visual Identity. The students will be trained in the production of user friendly documentation so that colleagues and external design bureaus can produce material that is on brand.

The students will:

- prepare guidelines, templates and policies
- organize content of design guides
- test consistency and efficiency in the user experience interface of a design guide
- use the correct technical specifications and terms
- know about automatic programmed generators for Visual Identity elements

Learning goals

After completing the course, the student will have insight and knowledge of:

- visual identity guidelines – usability and organization
- technical writing – terms, standards and best practice
- feasibility – assurance that the guidelines are executable and not too complex to follow
